

KENTUCKY DIVISION OF FORESTRY

Kentucky Firewise USA™ Community Grant Program

The Kentucky Division of Forestry, in cooperation with the USDA Forest Service, is pleased to announce the 2018 Kentucky Firewise USA™ Community Grant Program. Grants may be awarded for projects to reduce the wildfire risk and/or hazard in Kentucky's wildland/urban interface communities. Grant priority will be given based on community-at-risk level, establishment of a local Firewise USA™ Council or Board, and type of project submitted. The following guidelines have been established to provide potential grant applicants with required grant program information.

The **Kentucky Statewide Assessment of Forest Resources and Strategy, June 2010**, (Forest Action Plan) listed three important issues, in which wildfires are incorporated:

- Forest health
- Forest management
- Funding

Program Objectives:

- Provide cost-share funds for fire mitigation and Firewise USA™ activities
- Foster closer working relationships with fire departments, communities, counties, and interested organizations
- Educate the public about the benefits of the fire mitigation and Firewise USA™ programs
- Reduce the risk and effects of wildfire in wildland/urban interface areas
- Complete a Community Wildfire Protection Plan (CWPP) for each community

Project Match Requirements:

All project applicants **must** provide a match of 20 percent of total project costs with non-federal cash or in-kind contributions. Other federal funds **cannot** be used as a match for this grant.

Cash purchase matches are direct, out-of-pocket expenditures for eligible project activities that are supported by paid invoices, cancelled checks, and signed receipts or official payroll records.

In-kind contribution matches include on-hand supplies, third party donations of supplies or equipment, professional services at the professional rate, or time spent by employees, non-federal grants or volunteers on eligible project activities. Volunteer hours may be applied to the project at the rate of \$23.56 per hour. Assistance provided by federal employees may not be claimed as match.

Grantees are required to maintain project records in accordance with all applicable federal regulations. This includes: (1) records shall comply with generally accepted accounting principles; (2) records will document allowable costs; (3) records will be supported by source documentation, such as cancelled checks, paid invoices, payroll records, time and attendance records, signed contracts; and (4) records will be maintained for three years following payment.

Eligible Grantees:

- Local units of government (city or county)
- Nonprofit organization 501c3
